### **1. Nature and Continuance of Operations**

Westminster Resources Ltd. (the “Company” or “Westminster”) was incorporated under the Business Corporations Act of British Columbia on December 1, 2005. The Company is involved in the acquisition, exploration and development of mineral properties.

The head office, registered address and records office of the Company are located at Suite 488 - 625 Howe Street, Vancouver, British Columbia, Canada V6C 2T6.

These consolidated financial statements have been prepared on a going concern basis, which presumes the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. However, there are factors that management has identified that may cast significant doubt on the entities ability to continue as a going concern.

The Company had a working capital deficit of \$498,117 as at February 28, 2014 (May 31, 2013 – \$231,907), and an accumulated deficit of \$13,092,969 (May 31, 2013 – \$12,537,685). The Company has no source of operating cash flow and relies on issuances of equity to finance operations, including exploration of its exploration and evaluation (“E&E”) assets.

The ability of the Company to continue as a going concern and meet its commitments as they become due, including completion of the acquisition, exploration and development of its E&E assets, is dependent on the Company’s ability to obtain the necessary financing. Management is planning to raise additional capital to finance operations and expected growth, if necessary, or alternatively to dispose of its interests in certain properties. The outcome of these matters cannot be predicted at this time. If the Company is unable to obtain additional financing, the Company may be unable to continue as a going concern.

The business of mining exploration involves a high degree of risk and there is no assurance that current exploration projects will result in future profitable mining operations. The Company has significant cash requirements to meet its administrative overhead, pay its liabilities and maintain its E&E assets. The recoverability of amounts shown for E&E assets is dependent on several factors. These include the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development of these properties and future profitable production or proceeds from disposition of E&E assets.

### **2. Basis of Preparation**

#### **a) Statement of Compliance**

The Company is following the same accounting policies and methods of computation in these condensed interim financial statements as it did in the audited consolidated financial statements for the year ended May 31, 2013.

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. These condensed interim financial statements should be read in conjunction with the audited financial statements for the year ended May 31, 2013, which have been prepared in accordance with IFRS as issued by the IASB. These condensed interim financial statements were authorized for issue by the Board of Directors on April 29, 2014.

#### **b) Basis of Consolidation**

These consolidated financial statements include the accounts of the Company and its wholly-owned integrated subsidiaries, Minera Westminster, S.A. de C.V. (“Minera Westminster”) and Servicios Westminster, S.A. de C.V. (“Servicios Westminster”). All significant inter-company balances and transactions have been eliminated upon consolidation.

## **7. Subsequent Events**

### **Financing**

On January 22, 2014, the Company has agreed to amended terms regarding its private placement with Global Resources Investments Ltd ("GRIL"). The Company will be seeking to raise \$1,200,000 through the sale of 20,000,000 common shares at \$0.06 per share.

GRIL has been established to exploit investment opportunities in the junior mining and natural resources sectors worldwide, with an investment objective to generate medium and long-term capital growth. GRIL will re-register as a public company and be constituted as an investment trust with the name Global Resources Investment Trust Plc ("GRIT") and seek admission of its ordinary shares on the main market for listed securities on the London Stock Exchange.

In consideration for acquiring the Company's shares, GRIT will issue and deliver to the Company, 659,880 ordinary shares of GRIT at £1.00 per share (the "GRIT Shares"). The Company will then sell the GRIT Shares through the facilities of the London Stock Exchange to realize the private placement proceeds. After closing of the transaction GRIT will own 18.70% of Westminster issued and outstanding shares. A finder's fee commensurate with TSX Venture Exchange policies will be paid.

Subsequent to February 28, 2014, the TSX Venture Exchange approved the transaction, and GRIT was successfully listed on the London Stock Exchange. At the date of this report, the Company was not yet accessed funding from this source by being able to sell any portion of the units.
